LO Registration v2 · Dev Handoff

Oct 27, 2026 · Matt Moghaddam

v2 replaces the current register-loan-officer form. It drops the entry pop-up and the “Before You Begin” page and cuts about 25 inputs down to one 3-step form on a single page: About you, License details, Book your call. Everything else is collected on the intro call or in the agreement.

What’s in this package

File	What it is
1 - Flow and decision tree (PDF/PNG)	Full v2 flow, branches, and the after-call steps
2 - Screen 1 About You	Step 1: full hero, contact, referral source
3 - Screen 2 License Details	Step 2: slim hero, fit check, NMLS, sponsor states, CA branch, website
4 - Screen 3 Book the Call	Step 3: slim hero, scheduler embed (Calendly or similar)
5 - Screen 4 Confirmation	Separate page: booking details, next steps, platform video, YouTube links
LO Intro Call Guide (DOCX/PDF/MD)	What onboarding asks on the call, including every field removed from the form
Loan Factory logo (PNG)	Logo used in the wireframes

Live, clickable version of the wireframes: shared separately as a link.

Flow

1. **Entry points:** recruiter link, LF LO referral link, the Join Us page, ads. No pop-up and no separate landing screen before Step 1.
2. **Step 1 · About you:** Continue saves the lead in the CRM, alerts a recruiter, and slides to Step 2.
3. **Step 2 · License details:** California fields appear only if CA is selected.
4. **Step 3 · Book your call:** pick a time, or ask an onboarding specialist to call instead.
5. **Confirmation:** a separate page with call details, next steps, and videos to keep them engaged.

If a recruit stops after Step 1 and doesn’t finish Step 2 or booking within [X HOURS], alert a recruiter to call or text.

Form shell, steps, and URLs

Steps 1 to 3 are one form on one page. The header, hero, and stepper stay in place; only the form container changes.

Step	URL	Hero	Right column
1 · About you	/join	Full hero: headline, value prop, 3 proof points	“What happens next”
2 · License details	/join/license	Slim strip: headline + proof points on one line	“What happens next”
3 · Book your call	/join/book	Slim strip	None; the scheduler uses the full width
Confirmation	/join/booked	None	None; separate page

- **Step transitions:** Continue validates the current step, saves it, and slides the next step in horizontally inside the same container. No page reload. Back slides the other way.
- **URLs:** update the URL on each step with the History API (pushState) so the browser Back button returns to the previous step, and so each step can be tracked as its own pageview.
- **Hero:** full on Step 1. When moving to Step 2, collapse it to the slim strip so the form and scheduler stay above the fold on mobile.
- **Stepper:** three segments above the form (About you, License details, Book your call). Completed steps show a check, the current step is bold, and upcoming steps are grey. Mark the current step with aria-current=“step”.
- **Resume:** /join/license and /join/book should load directly for a saved lead (for example from a recruiter’s text link), with earlier answers prefilled.
- **Confirmation:** a real page load to /join/booked so ad platforms and analytics can count the conversion.

Step 1 · About You (/join)

Field	Type	Required	Notes
First name	Text	Yes	
Last name	Text	Yes	
Email	Email	Yes	

Field	Type	Required	Notes
Mobile phone	Phone	Yes	Required, since the whole flow ends in a call
How did you hear about Loan Factory?	Dropdown	Yes	Options: A Loan Factory LO referred me (first), Social media, Google search, Job posting, Webinar or event, Other
Which Loan Factory LO referred you?	Search / typeahead	Yes, if LO referral	Searches the active LF LO roster so the referral is credited
SMS consent	Checkbox	No	Must be unchecked by default

Continue saves the lead immediately, then slides to Step 2.

Step 2 · Your License Details (/join/license)

Field	Type	Required	Notes
Fit check	Checkbox	Yes	Three requirements listed above it: NMLS ID; each state Active or Approved-Inactive; committed to 1 closed loan every 6 months
NMLS ID	Number	Yes	
States you want us to sponsor	Multi-select chips	Yes	Sort A to Z by state name, not abbreviation
California license type	DFPI MLO / DRE-endorsed MLO	Yes, if CA selected	Show only when CA is selected
Mortgage website?	Yes / No	Yes	
Website URL(s)	URL, repeatable	Yes, if Yes	“+ Add another website”

Back slides to Step 1 with answers kept. “Continue to book your call” slides to Step 3.

Step 3 · Book your call (/join/book)

Embed a scheduler (Calendly or similar) tied to the onboarding team's calendars. The "None of these times work? Have an onboarding specialist call me" link should create a callback task and go to the confirmation page.

Confirmation (/join/booked)

Show the call time, the specialist's name, the mobile number we'll call, Add to calendar, and Reschedule. Below that, embed the TERA platform walkthrough video and three more videos, plus a link to the LF YouTube channel.

Removed from the form and where it went

Removed	Now handled
Entry pop-up and "Before You Begin" page	Fit check on Screen 2
Legal first and last name	Intro call / agreement
Citizenship	Agreement (HR)
Home and mailing address	Agreement (HR)
"Not exclusively originating with LF" checkbox	Intro call
W-2 vs. 1099	Intro call
Main and correspondent comp targets	Intro call
Preferred languages	Intro call
Website-approval checkbox	Intro call / agreement
Referrer phone and Zelle question	Intro call (outside referrals only)
Final accuracy checkbox	Agreement signature

Bugs in the current form to avoid carrying over

- SMS consent checkbox comes pre-checked.
- Phone and last name are not required.
- Citizenship options are copied from the borrower application.
- Sponsor states don't prefill from licensed states, and the state list is sorted by abbreviation.
- The review screen leaves out several answers.

- The video popup and cookie banner cover the form.

Open questions for dev

1. Can the NMLS ID look up NMLS Consumer Access to prefill name, licensed states, and CA license type?
2. Which scheduler will we use, and which team calendars does it pull from?
3. How is the LF LO roster exposed for the referral typeahead?

Placeholders to fill

- [X HOURS] before a recruiter follows up on an incomplete sign-up
- Call length shown on the booking screen
- TERA walkthrough video, two more video links, and the LF YouTube channel URL
- Confirm the hero proof points (240+ wholesale lenders, 2,600+ loan officers) with marketing
